

Seminars

<p>12:15</p>	<p>Plant Lust: New Plants to Pine For* Erin Schanen, The Impatient Gardener Mendota 1-2 12:15 PM - 1:15 PM <i>Also scheduled: Sat. 3:30 PM</i> Session Description Erin will share some of the best new plants coming to garden centers in 2019 as well as a behind-the-scenes look at what goes into introducing a new plant to gardeners.</p>	<p>Treasures of the Spice Road: Unique Medicinal Characteristics of Spice* Mary Halstad, Raven & Hawthorn Tree Herbalism LLC Mendota 5 12:15 PM - 1:15 PM Session Description Growing in relatively few parts of the world, spices, apart from herbs were made the ultimate luxury for thousands of years. This was due partly to their cachet as rare and romantic items, but even more so to their profound medicinal properties. Mary will explore spices we now consider common and those which have fallen out of use, with respect to general health and well-being.</p>	<p>High and Dry* Paul Ganshert, Ganshert Nursery & Landscapes Mendota 8 12:15 PM - 1:15 PM Session Description After the most challenging year of rain in many years, learn how to keep your basement and/or garden safe and dry. Paul will cover grading and drainage. Also, learn about rain garden placement and plants that don't mind wet feet!</p>	<p>Edible Landscaping* Emily Steinwehe, Emily Plants Waubesa/Kegonsa 12:15 PM - 1:15 PM <i>Also scheduled: Sat. 11:45 AM and Sun. 11:45 AM</i> Session Description Are you wondering how you can grow more perennial edibles in a beautiful garden? Emily will share her lessons learned from 11+ years of edible landscaping in Madison. Learn about her successes and failures, lower maintenance plants, plant sources and more.</p>
<p>12:30</p>	<p>Anything but the Everyday Daylily* Carole Hunter, Wisconsin Daylily Society Mendota 3 12:30 PM - 1:30 PM <i>Also scheduled: Sat. 1:00 PM</i> Session Description What most people recognize as the "common" orange daylily was growing wild in Asia during the time of Confucius, and is an ancestor of our modern daylilies. Now, with over 89,000 registered cultivations, in a myriad of sizes, forms and colors, how does one choose?</p>	<p>Awesome Annuals Mark Dwyer, Rotary Botanical Gardens Mendota 4 12:30 PM - 1:30 PM <i>Also scheduled: Sat. 2:30 PM</i> Session Description In this seminar, we'll examine a wide range of colorful seasonal plants for use in sun and shade, as well as in beds, borders and containers.</p>	<p>Growing and Using Herbs* Susan Obry, Mendota 6-7 12:30 PM - 1:30 PM Session Description Are you looking for an easy way to "spice" up your cooking? Learn about herbs; their uses (cooking and elsewhere); and tips for growing, harvesting and preserving them. Take your dishes from good to flavorful and great!</p>	<p>The Benefits and Ease of Growing Mushrooms in Your Garden* Lindsey Bender, Field and Forest Products Monona/Wingra 12:30 PM - 1:30 PM Session Description Almond Portobello and Wine Cap mushrooms are beautiful, healthy and delicious. Discover how you can easily grow these mushrooms in your garden or landscape to improve soil health, suppress pesky weeds, reduce plant disease and eat like royalty!</p>
	<p>Growing Tomatoes in Wisconsin Lisa Johnson, UW-Extension Dane County Mendota 1-2 1:30 PM - 2:30 PM</p>	<p>Goose Pond Sanctuary: Monarch Habitat and Conservation Mark Martin, Madison Audubon Society Mendota 5</p>	<p>From Chaos to Calm: Creating a Three-Acre Mini-Farm From Scratch* Jim and Mary Competti, Old World Garden Farms</p>	<p>Self-Watering SIP Container Gardening* Brandon Buechner, EZ Swap Pots Waubesa/Kegonsa 1:30 PM - 2:30 PM</p>

1:30	<p>Session Description Tomatoes are among the most popular vegetables grown in Wisconsin gardens, but they can also be one of the most challenging due to their susceptibility to diseases. This presentation covers a number of topics to help you have a more plentiful harvest. Topics include choosing varieties, growing tomatoes from seed, proper watering and fertilizing, trellising, mulching, and disease prevention and control, harvesting and storage.</p>	<p>1:30 PM - 2:30 PM Session Description Monarchs have experienced a dramatic decline in population in the last 20 years. MAS Goose Pond Sanctuary has been working hard to plant monarch habitats, and you can, too! Learn about monarch ecology, migration, threats and how you can provide what they need in your yard to flourish.</p>	<p>Mendota 8 1:30 PM - 2:30 PM <i>Also scheduled: Sat. 2:15 PM and Sun. 11:45 AM</i> Session Description Whether it's planting a garden, raising a few chickens, keeping bees, or tending to a flower-filled yard, people are yearning for a more simple lifestyle — and the opportunity to create a more meaningful, fulfilling, and fun-filled life. In this inspiring talk, Jim and Mary will take you through the story of creating their own little three acre mini-farm from scratch, taking their lives from chaos to calm. From gardening and landscaping to creating everything from a chicken coop to a barn, they show how following your dreams and passions can take you to your happy place.</p>	<p>Session Description Self-Watering Sub-irrigated planters are a great solution for those looking to grow with ease. Learn the basics of SIP Gardening and how to set one up.</p>
1:45	<p>Backyard Bug Basics* Beth Goeppinger, Bong State Recreation Area - WI DNR Mendota 3 1:45 PM - 2:45 PM Session Description Plants and insects have one of the longest partnerships in biological history. Discover the insects that may visit plants in your backyard. Learn the basics of identification, how to control a few pests and how to attract beneficial insects.</p>	<p>TBA , Mendota 4 1:45 PM - 2:45 PM Session Description</p>	<p>Maple Syrup Production for Beginners* Theresa Baroun, Wisconsin Maple Syrup Producers Mendota 6-7 1:45 PM - 2:45 PM <i>Also scheduled: Sun. 12:45 PM</i> Session Description Learn how to make maple syrup, as well as information about the nutritional value and history of Wisconsin maple syrup. Free beginner books developed by the WMSPA will be handed out.</p>	<p>Soil Health and Fertility* Thomas Parslow, Madison Area Food Pantry Gardens Inc. Monona/Wingra 1:45 PM - 2:45 PM <i>Also scheduled: Sat. 9:15 AM</i> Session Description Learn the basics of soil health and fertility. We will examine the structure and composition of soils along with techniques on maintaining soil health and fertility. Participants will receive instruction and materials on soil testing, sampling and interpreting results.</p>
	<p>Everything You Need to Know About Hydrangeas and Their Best Companion</p>	<p>Impacts of the Master Gardener Program* Mike Maddox, UW-Extension</p>	<p>Time for Tea: Herbal Drinks You Can Grow!* Erin Presley, Olbrich Botanical Gardens</p>	<p>How to Gather/Harvest, Process, and Cook Wild Rice* Maggie Melby, Melby</p>

2:45	<p>Plants!* Melinda Myers, Mendota 1-2 2:45 PM - 3:45 PM <i>Also scheduled: Sun. 12:45 PM</i> Session Description Learn tips for the selection, planting and care of hydrangeas. Plus, Melinda will demystify pruning techniques for various types of hydrangeas. She'll also provide examples of the best companion plants for hydrangeas to create beautiful plantings in your landscape.</p>	<p>Mendota 5 2:45 PM - 3:45 PM Session Description Master Gardener Program director Mike Maddox will provide an overview of the program and how volunteers use gardening to make a difference in the places we live, learn, work and play.</p>	<p>Mendota 8 2:45 PM - 3:45 PM <i>Also scheduled: Sun. 10:15 AM</i> Session Description Your garden can offer a wealth of herbal flavors for refreshing summer and warming winter beverages. Olbrich Herb Garden horticulturist Erin Presley will cover the basics of growing, using, and preserving herbs commonly used for beverages, from old standbys like mint tea to fun new ideas like setting up an herbal cocktail station!</p>	<p>Works Waubesa/Kegonsa 2:45 PM - 3:45 PM Session Description An overview, with information including the necessary equipment needed, permits, and the many (and at times boring) rules and regulations. This seminar will guide you with starting the beautiful process of harvesting, through to the tasty and nutritious result. A sample of the Wild Rice before and after cooking, will be included.</p>
3:00	<p>Bringing the Mediterranean to the Midwest* Jason Toth, Chicago Park District - Garfield Park Conservatory Mendota 3 3:00 PM - 4:00 PM <i>Also scheduled: Sat. 3:45 PM and Sun. 2:00 PM</i> Session Description The harsh winters of the Midwest shouldn't deter gardeners from enjoying some Mediterranean style in their yards, porches or terraces. This lecture will include an introduction to the aesthetics of Mediterranean gardening; a recommended plant list, including native and cold-hardy European plants; plus the practical and environmental benefits from gardening with drought-tolerant plants.</p>	<p>Bloom or Bust!* Laurie Robertson and Errin Schlapbach, Ganshert Nursery & Landscapes Mendota 4 3:00 PM - 4:00 PM <i>Also scheduled: Sat. 1:15 PM and Sun. 2:15 PM</i> Session Description Let's make our short Wisconsin growing season feel longer, with blooms from March to October! From bulbs and perennials to trees and shrubs, learn from the pros so that you can always have something flowering in your garden.</p>	<p>Straw Bale Gardening Joel Karsten, Straw Bale Gardens Mendota 6-7 3:00 PM - 4:00 PM <i>Also scheduled: Sat. 4:45 PM and Sun. 10:30 AM</i> Session Description Learn the basics of setting up a straw bale garden for growing vegetables, herbs or flowers in our northern climate. Joel will discuss why and how it works, while diving into the biology that makes the concept work so well. Hear some of the mistakes new straw bale gardeners often make and how they can easily be avoided. If traditional gardening is getting too physical for you, learn this method and you will be gardening much later in life. Learn how straw bale gardening is providing a simple, sustainable and practical solution for world hunger.</p>	<p>Diseases of Trees and Shrubs Brian Hudelson, Plant Disease Diagnostics Clinic UW-Extension Monona/Wingra 3:00 PM - 4:00 PM <i>Also scheduled: Sun. 2:15 PM</i> Session Description Learn about common and emerging diseases that can adversely affect the trees and shrubs in your landscape. This presentation will help you learn how to identify and manage these diseases.</p>
	<p>Raised Row Gardening - Vegetable Gardening Made Easy!*</p>	<p>From the Garden: Herbal Medicine Making</p>	<p>Revitalizing Milwaukee's North Side Via Pocket Parks*</p>	<p>The NR 40 Invasive Species Rule: What it Means for Your Yard or</p>
